Changeable cutting sheets meaning one coloured sheet for different raw products

Stainless steel screw holder

Stainless steel stand

Rubber feet - profboard stands firmly on your worktop

The revolutionary **Patented** base board is made of virgin PEHD (Polyethylene) in a special edition according to our specifications and there has been no compromise on the quality.

profboard is safe in all commercial dishwashers, stain resistant, warp resistant to bending, chipping and cracking.

They are the densest board available that will not dull your knives.

Cutting sheets can be used for an average of 4 months and can be purchased separately according to customers needs. This provides you with a professional and hygienic way to prepare your food. Use profboard and be safe every single day.

We are so sure of the quality that we give you a **5 year** guarantee on the baseboard including the stands and taps.

There are 4 sizes:-
30x40cm - 30x50cm - 40x60cm
Plus a special Gastronorm size
for insertion into s.s work tables
325mm x 530mm x 22mm

all costs exclude delivery

Quality is essential to us, and we are so sure about this that we give you a 5 year guarantee (from day of purchase.)

The guarantee includes base board, stainless steel screw holders and stands including the rubber feet. The guarantee is only valid if the instructions are followed carefully.

The guarantee does not cover normal daily wear and tear including cutting marks on the surface of baseboards.

Experience the pleasure of a safe working place, thanks to the unique stainless steel stands and rubber feet. You do not need wet cloths to keep your cutting board from slipping on your worktop surface.

The design and construction of the stands, makes it easy to clean, and it is all commercial dishwasher safe. The colour coded cutting sheets are made of a very special PP (Polyethylene) specification.

The cutting sheets are manufactured in 6 different colours to comply with HACCP systems.

The cutting sheets can withstand all common detergents and are commercial dish washer safe, and they do not absorb or release flavours or smells.

We recommend that the cutting sheets are replaced at regular intervals to ensure the best possible hygiene when preparing food and avoid risk of cross contamination. The cutting sheets are replaceable at a low cost, and doing this regularly, will ensure no problems with Environmental Health inspections.

Due to the heat from dishwasher the cutting sheets expand when washed, but contract to their original size on cooling. When the baseboard and the cutting sheets have the same temperature they fit perfectly together. ***However – do not place very hot pans or Skillets on the boards!***
